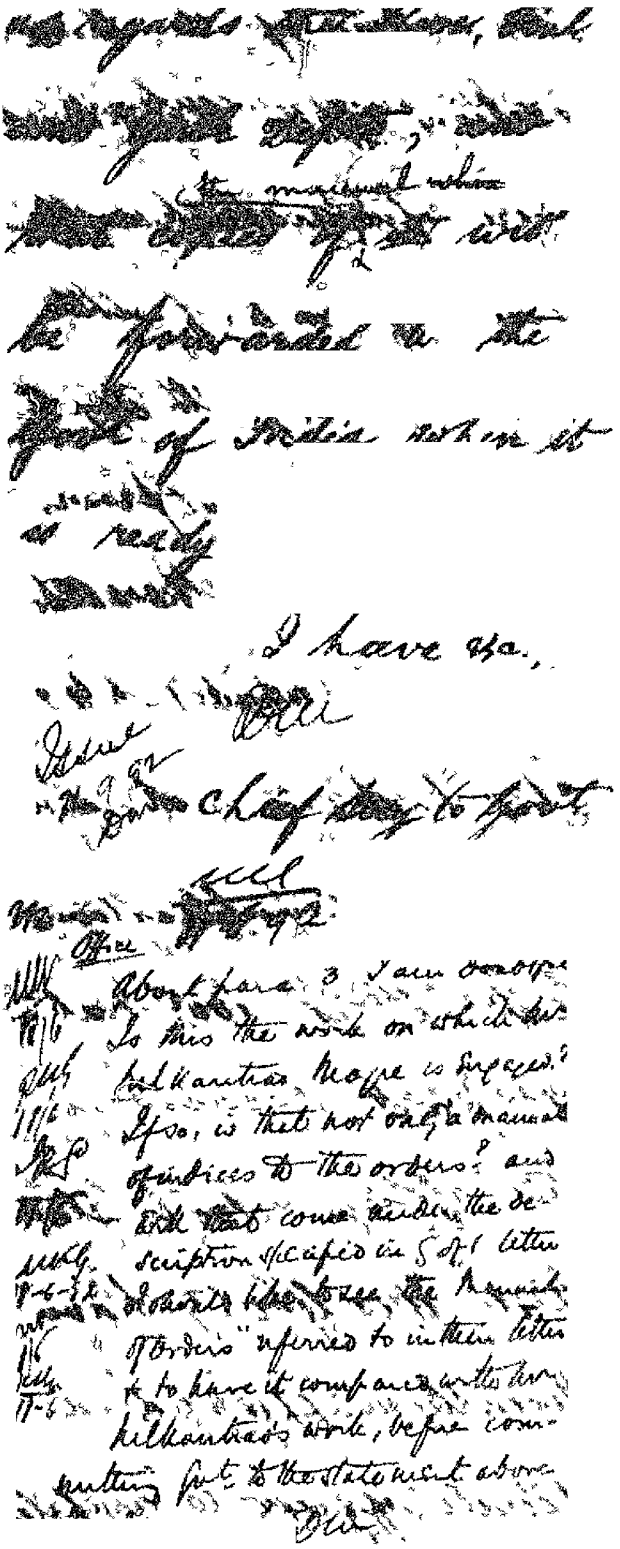
About Para 3 I am doubtful
Is this the work on which our
Hill Coolies Wages is expended?
If so, is that not only a manner
of indices to the orders? and
Will that come under the de-
scription specified in Sec. 1 letter
I should like to see the Manual
of Orders" referred to in that letter
& to have it compared with the
Hill Coolies work, before com-
mitting Govt. to the statement above.

Respectfully submitted.

The work referred to in para 3 of the draft letter to the Govt. of India is that on which Mr Vitkanchão Mahadev Mogre has been engaged. A copy of the Manual of Orders of Govt., N. W. P. and Oudh, was not received in this office with the letter from the Govt. of India no. 507, dated 31st October 1891, and it is not therefore possible to compare it with Mr. Vitkantrao's work.



Respectfully submitted.

The work referred to in para 3 of the draft letter to the Govt of India is that on which Mr Vitkanbai Mahadev Nagre has been engaged. A copy of the Manual of Orders of Govt, N. W. P. and Oudh was not received in this office with the letter from the Govt of India no. 507, dated 31st October 1891, and it is not therefore possible to compare it with Mrs Vitkanbai's work

A copy of the Manual may therefore be obtained from the Govt of India.

A draft-letter is put up for approval.

Memo. from the Govt of India, Home Deptt., No. 539 & 4th July 1892 -

Memo. from the Deptt., Govt Central Prov., N.W.P. & Oudh, & 22nd July 1892

Submitted with a copy of the Manual of orders of the Govt of N.W.P. and Oudh (in 2 vols and 12 supplements) with reference to the Chief Secy's instructions below the draft letter to the Govt of India on R.D. No. 1108B within.

2. The work referred to in para. 3 of the draft letter to the Govt of India is that on which Mr Vilkantrao Mospe is engaged. It is not merely to be a Manual of indices, but a collection or compilation of all standing orders of Govt in the Rev., Jud., and General Depttts. issued from 1860 (the year up to which Jacomb's Circular Order Book has been completed) to 1891, giving the substance of each and all orders

as fully and completely as possible on the plan followed by Messrs Jacomb and Prinsep. Mr Kilkantraos Manual is not quite ready, but on comparing a portion of the work (manuscript) obtained, with the Manual of the orders of the N.W.P. Govt, it appears that it will be similar to the latter with this difference, that it will embrace the orders issued in the Rev: Fin: and Genl Depts only, while the Manual of orders of the N.W.P. Govt embraces the orders pertaining to all Depts of the Administration. It is therefore presumed that Mr Kilkantraos Manual will come under the description specified in para. 1 of the letter from the Govt of India

Letter from the Government of India, Home Department, No. 507, dated 31st October 1891:—

"I am directed to enquire if any compilation of Circular and General Orders issued by the Local Government such as the 'Manual of Orders of Government, North-Western Provinces and Oudh,' has been prepared in Bombay. If so, I am to request that two copies may be forwarded for the use of this office, and that, with a view to the compilation being kept up to date, any additions or alterations which may subsequently be made in the orders may be regularly communicated to this Department.

"2 No such collection of Government orders has been received in this Department from Bombay. Most of the Manuals in the special Departments, such as Police and Jails, have been received; but the corrections have not, in all cases, been regularly forwarded. I am to request that, with the permission of His Excellency the Governor in Council, instructions may be issued for the regular transmission to the Home Department of any new or revised Manuals on any subject which may hereafter be issued in Bombay, and of any additions or alterations subsequently made in them."

Present Tahsildar Lakshmanan Nambi who states as follows.

The village of Chinnagadi is registered as the Inam of Dinakar Appaji, my uncle, for whom I hold a general power of attorney. The village is a life inam. I have seen a true copy of the Sanad under which the village is held. I consider that as the rights over the forest. We pay kist on the whole area including the forest. There is only one forest number, 105, which is assessed. We are in the habit of taking whatever wood we want from the jungles. It is not of any quality superior to firewood. We do not ask permission from the Forest Department.

It appears to me doubt
ful that a forest which is
used communitively as a
Cafe-jungle can be legally
constituted a protected forest.
Part of it can be constituted a
protected forest, & can certainly
be constituted a reserved forest
A forest may be constituted
reserved, or protected, if it be
the property of Government
or if Government have pro-
prietary rights over it, or any
portion of its produce (Forest
Act, sections 3 and 28). I do not
think that Government can be
considered to possess proprie-
tary rights in such a case to the
extent of interfering with the
management of the forest.

I think provided that

5. The question of the extent of the Lumber's rights over the Forest is a very difficult one.

6. Mr. Gray's view is I think mistaken. He says the Lumberer has only rights whereas he only has the Local Forest Laws and does not pay any fuel at all. The case of Robertson comes under the decision quoted at page 93 and 94 Cordeaux' Rules Para 5, as there are no express words in the Lumber granting fuel

Camp Sirsi 7th February 1891

Sir,

I have the honour to report that the Travellers Bungalow at Gersappa is built in Survey No 3 of Hulegar containing 13 acres 22 guntas and declared Protected Forest in Government Notification No 20. dated 1st March 1889, and to propose that the land be disforested and handed over to the Revenue Department.

The enclosure was covered with thorny scrub jungle up to the doors of the Bungalow, and two years ago I sold the fire wood it contained and had the whole of the undergrowth cleared away. To keep the brushwood down, the land has been given out

with some temporary cultivation for the last two seasons. So that now with little trouble it could be made to yield grass which would be a convenience to travellers.

The number is a small hill surrounded by cultivation and close to the town of Galagoda and is quite unsuited for inclusion in forests. The Bungalow is built in the centre on the top of the hill, so that the conversion of the number into the compound of the Bungalow appears undesirable.

Forests : Kánara.

No. 3494.

REVENUE DEPARTMENT.

Bombay Castle, 20th April 1892

Memorandum from the Commissioner, S. D., No 477, dated 12th February 1892—Forwarding one No 4771, dated 1st idem, from the Conservator of Forests, S. C., together with the following letter No. 339, dated 27th January 1892, from the Collector of Kánara :—

"In reference to the correspondence ending with your letter No. 81, dated 9th January 1892, I have the honour to observe that already a large portion of the forests of this district has been demarcated and settled on the uniform principle of classification into Reserves and Protected Forests, and that several reports dealing with extensive areas will shortly be ready for submission. For the reasons stated in my letter No. 4333, dated 30th October 1891, I am still very respectfully of opinion that the further threefold sub-division of reserves directed in Government Resolutions Nos. 6840 and 8579, dated 5th October 1891 and 11th December 1891 respectively, would be a needless and very costly undertaking here. With few exceptions, the whole area now under forest in Kánara may properly be designated as 'forest proper' and the selection from it of pastures and fodder reserves would seem to be out of place.

"2. To carry out the classification (*a*), (*b*) and (*c*) effectually a special officer with suitable establishment will be necessary and his labours must extend over several years. For these reasons, I respectfully request that this correspondence may be referred to Government for definite orders, if you see no objection to that course. Should Government decide against the views I have ventured to express, then I would suggest that the work of sub-division may at least be postponed until the demarcation and settlement of the entire district on the usual lines has been brought to completion and received the final sanction of Government."

the Conservator remarking as follows —

"2 As already stated in my memorandum No 4307 of the 29th December 1891, I take the same view as that held by the Collector in regard to the inexpediency of dividing the forests of Kánara into the classes (*a*), (*b* and (*c*)."

the Commissioner observing as follows :—

"2. The undersigned cannot support the Collector's suggestion that the work of sub-division may be postponed, until the demarcation and settlement of the entire district on the usual lines have been completed.

"3. The best course seems to be that in those parts where the demarcation and settlement are in progress, the orders of Government regarding the classification of forests should be carried out. In places where the settlement and demarcation have been completed and the reports are already submitted or are ready for submission, the sub-division may stand over, until it can be undertaken by the Forest Settlement Officer."

RESOLUTION.—Government concur in the view expressed by the Commissioner and sanction the adoption of the course proposed in paragraph 3 of his memorandum.

2. Messrs. Woodward and MacGregor seem not to have correctly apprehended the orders of Government. If the forests are "forests proper" mainly, the remainder is so small that the difficulty raised by the Collector or his apprehension as to the time which will be taken in classifying the remainder as directed is not clearly understood.

3. Government is not prepared, without further information, to accept the suggestions of the Collector and Conservator that the whole of the area included in forest reserves in Kánara should be classified and treated as forest proper. No doubt a large extent of the reserves should be so classified, but it is believed

that a considerable area of pasture land which ought, under the orders communicated in Government Resolution No. 6840, dated 5th October 1891, to be subjected to a less rigid system of conservancy, has been included in the Kánara reserves; and Government look to the Commissioner, S. D. to take the necessary steps for effecting the division and classification ordered.

} Forwarding the reports called for in Government Resolution No. 5589, dated 14th August 1891, on the several points noticed by the Government of India in their review of the Forest Administration Reports of the Bombay Presidency for 1889-90.

RESOLUTION.—With reference to the proposal made by the Government of India in paragraph 3 of their letter No. 726-F., dated 23rd June 1891, as to the manner of showing in the annual reports of the Forest Department the cost per square mile of forest settlements effected during the year under report in the several Circles of the Bombay Presidency, extract paragraph 2 of the letter from the Conservator of Forests, N. C., No. 4658, dated 24th November 1891, paragraphs 1 and 2 of that from the Conservator of Forests, S. C., No. 2303, dated 24th August 1891, and paragraphs 2 to 5 of the memorandum from the Commissioner, N. D., No. 4878, dated 15th December 1891, should be forwarded to that Government for information with an expression of the concurrence of this Government in the remarks made by the first-named officer.

2. With regard to the suggestion made by the Government of India in the last clause of paragraph 7 of their letter No. 577-F., dated 7th July 1890, that all working plans as they were completed should be scrutinized, before being formally sanctioned, the attention of the officers concerned should be drawn to the orders passed in paragraph 13 of Government Resolution No. 650, dated 26th January 1891, under which all working plans have before final sanction to be submitted to the Collector of the district concerned for careful scrutiny as Government consider it essential that the Collectors should have full opportunity of judging of the effects of the proposed closures of forests and of suggesting such modifications in the plans as are imperatively necessary to meet the

reasonable wants of the people. All working plans should in accordance with these orders be submitted for the approval of Government through the Collector and Commissioner concerned.

3. In regard to the suggestion made by the Government of India in paragraph 10 of their letter No. 577-E., dated 7th July 1890, for dealing with cases of forest fires, His Excellency the Governor in Council is of opinion that no general order is required or expedient in the matter, but that each case as it arises must be decided on its merits.

4. In paragraph 4 of their review of the Forest Administration Reports of the Bombay Presidency for 1889-90 the Government of India noticed that certain areas previously notified as Reserves under Section 34 of the Forest Act in the Southern Circle were being regazetted under Section 4, and that this procedure was not legal inasmuch as areas once notified as Reserves could not again be notified under Section 4 without their previous disforestment under Section 26. It appears from the report submitted by the Conservator on this point that the procedure referred to has been followed in the case of certain lands in the Kárwár Táluka of the Kánara District which were notified as Reserves under Section 34 in 1879 and have been renotified under Section 4 in Government Notification No. 5846, dated 20th July 1885. The latter notification should be cancelled and the Conservator of Forests, S. C., and the Forest Demarcation Officer, Kánara, should be informed that no further notification under the Forest Act is necessary in the case of lands to be included in forests, which have been already declared Reserved Forests under Section 34 and have not since been disforested under Section 26.

5. With reference to the request made by the Conservator of Forests, N. C., in paragraph 7 of his letter No. 4658, dated 24th November 1891, that he may be authorized to entertain temporary establishments of depôt officers at a cost not exceeding Rs. 13,500 per annum in order to have the yield of each coupe recorded in the manner required by the Government of India in paragraph 9 of their letter No. 726-E., dated 23rd June 1891, Mr. Shuttleworth should be informed that if more men are really wanted for special work in Thána, he should arrange by removing establishments from districts where they can be spared.

6. The other subjects noticed in these reports do not call for any special orders of Government.

Forests: Exclusion from Reserved —— of certain land in the Kárwár Táluka of the Kánara District.

No. 6611.

REVENUE DEPARTMENT.

Bombay Castle, 17th August 1892.

Memorandum from the Commissioner, S. D., No. 2208, dated 7th July 1892—Submitting the following letter No. 622, dated 19th February 1892, from the Collector of Kánara :—

"With reference to your No. 4409, dated 14th November 1890, I have the honour to forward herewith a draft notification for the disforestment of 10 gunthás of ground out of Reserved Forest No. 349 of the village of Kinnár in Kárwár Táluka of this district, required as a cremation ground by the Padh and Vájantri inhabitants of the village who number about 359. The land which has hitherto been used as a burning ground is too close to habitations with a risk of fire spreading to them. The Revenue and Forest officers agree in the desirability of the proposed change of site, and I therefore beg to recommend that the area as now fixed, viz., 10 gunthás, may be ordered to be disforested and set apart as a burning ground."

and stating as follows :—

"2. In reply to a reference from this office the Conservator reports that there is no objection to the proposed disforestment. The necessary draft notification prepared in accordance with the orders contained in Government Resolution No. 3329, dated 11th April last, is appended."

Letter from the Under Secretary to the Government of India, Revenue and Agricultural Department (*Forests*), No. 1915-F., dated 3rd August 1892 :—

"In reply to your letter No. 5979, dated the 22nd ultimo, I am directed to convey the sanction of the Government of India to the issue by the Bombay Government of a notification, under Section 26 of the Indian Forest Act (VII of 1878), declaring that, from a date to be fixed in such notification, a portion of Survey No. 349 of the village of Kinnár in the Kárwár Táluka of the Kánara District, the area of which is stated to be 10 gunthás, shall cease to be Reserved Forest."

RESOLUTION.—The requisite notification directing the exclusion of the land in question from Reserved Forests from 1st September 1892 should be published in the *Bombay Government Gazette*.

II General Condition & Resources.

4. Season and Rainfall.

The rainfall during the year under report is shown in the marginal table, from which it will be seen that the fall has greater than the average of the preceding 5 years at all stations except Kubli, Mundargi, Ranebennur, Karajgi

Stations where rain is registered.	Rainfall Average of preceding 5 yrs.	Current year.		
Dharwar	35	6	28	13

Karajgi	24	52	30	66
Kalghatgi	37	35	40	94
Kod	29	a	31	33
Ron	30	47	25	71

Kalpetta and Kod. The rainfall registered during the year, compared with that of the preceding year, shows a decrease in all stations except Mukki, Bankapur, Ramdurg, Karwar and Sirsi. At the beginning of the season, rain fell in sufficient quantity in Paddy growing and also in some of the black soil Talukas, in the months of July and August the rainfall became excessive except in the eastern Talukas. Heavy showers fell in October and November, which injured the early or Kharif crops and proved very unfavourable for late or Rabbi crops. Locusts appeared in young rice fields

will be seen from the subjoined table, an increase of 1,725 or 1·6 per cent over the figures given for the preceding year

June 1890.	June 1891	1889–90 Births	1889–90 Deaths	1890–91 Births	1890–91 Deaths
1031626	1048901	38690	34838	44302	25725

The figures show that there is an increase in the number of births during the year. This increase may be attributed partly to the general natural law of tendency to increase, and partly to influencing population, owning to the presence of the Railway.

The decrease in the mortality may be ascribed to the absence of diseases of any severe
